Compact Discs

Our thanks to Denon, who will be donating a CD player to WFMU later this summer. Thanks also to the companies that have already sent us CD's.

8 Track Tapes

I'm not sure why, but we haven't received any 8-tracks lately. Looks like I'll have to cancel my plans for an all 8-track tape show.

Folks,

Our summer program guide (Lowest Common Denominator) is out. Drop me a line if you'd like one of these or a copy of our June cover story in the Village Voice (I promise this is the last time we'll mention it). Also, if you missed our Winter LCD, High Times reprinted Jim Marshall's (The Hound) "The 10 Worst Things That Happened To Popular Music (or...why everything sucks)" in their August issue.

New Show: "Caravan" with Gerald Seligman. Gerry has written articles on international music for The Nation, Jazziz, and Pulse magazines. Sundays 3-5 PM.

You're all welcome to submit contributions to our next LCD. We need literary type stuff (y'know...articles, essays, poetry) and artistic type stuff (cartoons, scribbles, etc.) and money type stuff (ads). Deadline: August 20th. This issue's theme: Conspiracy Theories. Send all LCD type stuff attention: LCD. Don't send them to me, 'cause I might plagiarize them to pass some courses next semester. If you've got any questions call Bart Plantenga or Ken Freedman.

Layman's guide to the WFMU mystical, magical new releases system. Each album that arrives (old or new) stays in the new bin for four weeks. Each Thursday new stuff is added. DJs have been known to camp out on the sidewalk on Wednesday night to be among the first to hear a new record. After the four weeks, I tabulate how many plays each got. They are then put in the library, where they are played but not tabulated. We print a monthly playlist and each record is only listed for one month.

Thank you for sending records. Thank you, thank you, thank you...

David Newgarden
