The Summer issue of LCD (Lowest Common Denominator), our program guide should be in your hands. If not, simply ask and you shall receive.

The compact disc section on this list is an accumulation of all the CD's we've received in the past year. Thanks to Capitol for the entire Beatles CD catalog...thanks to Abkco for the entire Rolling Stones London remastered records catalog....thanks to Stress Management for the Daniel Johnston cassette library.

I'm told that WFNU has been in High Times' "Top 100" for a few months... Top 100 what? I'm not sure but I think it's a compliment. The last issue of LCD made "Publisher's Choice" in Factsheet Five...DJ's Jim Marshall, Leslie Berman and Laurie Es have much better grammar than I and have been showing it off in articles in the Village Voice.

Leslie also edits the Folk Trade News (PO Box M588, Hoboken, NJ 07030 201-656-6710). Rob Weisberg co-wrote an article on World-Beat in Ear Magazine. Kaz's book "Buzzbomb" has been out for a while put I plum forgot to mention it (Fanagraphics Books). Jeff Claus has recently written his will and has a tentative date of August 1 for his death. Gerald Seligman has returned from his record-producing adventures in Brazil and is back on the air. He's also recently produced/compiled/wrote liner notes for the Out of Africa CD on Rykodisc.....Irwin Chusid penned the liner notes for the Rhino Records Golden Throats compilation featuring vocal gems by Leonard Nimoy, Andy Griffith, Jack Webb, and interpretations of Dylan by William Shatner, Eddie Albert, and Sebastian Cabot. Seriously. That's all.

Thanks,

David Newgarden
Music Director
