Dec. 4

Our backyard fishpond just froze over, and I'm getting a little worried about our pet fish, Elvis...Growing up in New York City, the only fish I ever saw were in a can...Do goldfish live through the winter? If not, should I drill a hole in the ice and pull him out with hook and line? (saw Bob Hope do this in a movie once) Would this be too traumatic for a store-bought fish? If you have any expertise in these matters, please call me at 201-266-7901 on a Monday or Friday (day or night). You can also use this number for music related business, but the answering machine is still in the repair shop, so you'll get no one on other days.

After a 1-o-n-g delay (due to building the new studios/offices, horrible transmitter problems, & worse...), our station manager Ken Freedman is promising a new issue of our program guide, "Lowest Common Denominator", by "about" the end of the year. Let me know if you'd like to receive a copy. Happy Holidays.

David Newgarden, Music Director
