24 hours a day, 365 days a year, WFMU presents a smorgasbord of diverse musical programs (58 in all) presenting practically every type of music I can think of...

(does anyone know where I can get Imelda Marcos' new album, or get in touch with one of those "Indian playback/calypso fusion" bands???) The records, tapes, & CD's on this playlist were received from record companies, bands, generous FMMU listeners, garage sales, fleamarkets, and my grandmother's basement during the month of April. The new recordings are placed each week in a "new-bin" (it's purple plexi-glass with crushed velvet trim) where DJ's flock from miles around to hunt for new treasures. Each DJ has complete programming control over his/her show; we have no "rotations" or restrictions. The records are in the bin for a month, and then I tally up the number of plays and type up this wacky list... Actually, Diane tallies, and Chris types...I'm just a figurehead.

--David Newgarden, Music Director
