Best Rock Station

**WFMU (91.1 FM)
Upsala College
East Orange NJ
201-266-7900**

Tune In, Turn On, Drop Everything. More than any other station within our reach, WFMU is **human radio**. The deejays are on regularly enough to get to know, to become

part of your life, slightly larger than life yet believable characters with real emotions, anger, cynicism, and warmth. Which shapes the music they play, the poems they read, the sound effects they drop in, the public-service spots they produce, even their engrossing once-in-a-while fanzine/program guide and a tape of recordings by deejays and hangers-on called *AltMyChildren, Vol. 2*, which is easily the best local compilation of the year. Both guide and tape are available for a nominal contribution.

This "rock" business still bugs me but I'm not gonna argue with NY Press for picking us for the second year in a row...

We've moved to our new offices and studios, but my answering machine was lost when the old station self-destructed. Here's my new (newest) office hours:
Mondays 9-6
Tuesdays 9-12
Fridays 9-6

Same phone number, same address...
