It's been an awful long time since I've had any news that hasn't been dire... but no disasters this month. The long march of our border skirmish continues, as we await some word from the F.C.C. It will likely be months before anything happens, and years before the issue is resolved... perhaps longer if the Gramm/Rudman/Hollings burslesque ever takes place, but F.C.C. cuts will certainly not be the greatest evil perpetrated by this budget-balancing monster...

After 5 years of typing playlists, (and inhaling dangerous levels of Liquid Paper fumes), I'm a bit too jaded to think up goofy contests like I used to on this back page. But while I'm watching the Mets lose another one, I'll take the time to run down some of the WFUM roster changes of the past year...or so...

DJ Bart Plantenga was traded to Radio Libertaire 89.4 (Paris) in exchange for an Yves Montand lp and a dozen croissants. He's doing an audio collage show called "Wreck This Mess" on "la radio des anarchistes." One can send tapes of anything to Bart Plantenga c/o Radio Libertaire, 145, rue Amelot, 75011, Paris, France....Gerald Seligman, host of "Caravan" went to Rio de Janeiro last year to produce/compile three recordings ("Asa Branca" and "Brazilliance" on Rykodisc, "Brazil: Forro-Music for Maids and Taxi Drivers" on Rounder) and he had such a great time that he never came back. Former WKCR slugger Jonathan Rudnick was signed as a free agent to take over Gerald's timeslot. Jonathan is a veteran of Crammed Discs and Globestyle Records and currently runs S.O.B.'s nightclub in Manhattan, the only place where I'll spend \$4.50 on a beer....also acquired recently from WKCR is Tony Coulter (in exchange for a rare tape of Charlie Parker burping and two draft picks) Tony has more records by obscure bizarre-named psychedelic bands than I have hairs on my head, but he's equally passionate/knowledgeable about modern experimental music and 20th century composers. He's the record review editor of EAR magazine and WFUM's tallest disc jockey....Leslie Berman has recently retired from the airwaves in order to finish her book on folk music, and also to attend law school (how many lawyers does it take to screw in a lightbulb? How many folkies does it take to screw in a lightbulb?)...Dan Behrman ("The Immigrant") has finally sold his house and will be leaving us in December to emigrate to Montreal. Recently he's been kept busy managing Haitian voodoo dance band Boukman Eksperyans who are signed to Mango Records...Another new show is "Mr. C's Soul Spectacular" with Joe McEwan, who recently left Columbia Records (where he produced re-issues of Bing Crosby, Sarah Vaughn, Frank Sinatra, the Chi-lites, Robert Johnson) to do A&R for Sire/Blanco Y Negro Records (who recently signed My Bloody Valentine and Dinosaur Jr....go figure...)

While I'm listing all these extra-curricular activities....Ol' Pal Irwin is again penning the liner notes for Golden Throats Vol. 2, Rhino's collection of atrocious music sung by celebs.... Laurie Es co-produced the tribute album to Japanese garage babes, Shonen Knife (Gasatanka Records)... R. Stevie Moore & Jim Price are contributing a track to a tribute album to the Bonzo Dog Band (coming soon on Imaginary Records U.K.)...Stevie's also put out a couple of new albums in France including the CD "Greatestits" (New Rose Records)...Matty O.'s band Krackhouse has a 2nd lp coming out on the French label Metamkine (like Jerry Lewis, WFUM dj's seem to be geniuses over there)...Matty also has a CD out as a member of "Gallio, Ostrowsky & Zimmerlin" ("Certainty Sympathy" on the Swiss Percaso/Rec Rec Label), and his participation in the Amica Bunker performance series has been documented on the record "Exquisite Corpses from the Bunker" (Heartpunch Records). He's also played a few gigs on analog synthesizer for superduperstar John Zorn...Uncle Wiggly (with Wm. Berger) has an album coming out in Austria, and they're on the new Chemical Imbalance record...Speed The Plough (with our own Frank O'toole) is recording their second album...Alan Watts is still dead...several live concerts taped on Pat Duncan's show are coming out on the Radcore label...Daniel Johnston's 3rd FMJ performance yielded a single coming out on the S.O.L (Singles Only Label)...Station Manager Ken Freedman windsurfed across New York Harbor and his culinary expertise was recently mentioned in Rolling Stone magazine (He cooks Rice Krispie Marshmallow Treats here at the station)...Let's Go METS!!!!!!!!!!!!
