-----  
The list you hold in your claws is in order of airplay (most at the top & so on) for a time period of four weeks after receiving the record/CD/cassette/8-track tape. Quite a bit of the music we receive unsolicited is actually not used and becomes landfill. Even the recordings at the very bottom of this list had at least one WFMU dj (of 60) who liked it. Thanks to all the record companies, bands, stores, listeners and Alice's Aunt Bertha for supplying the titles found on this month's list. And yes, if you were wondering, I'm extremely sick of hearing versions of Rutles' songs.--....
