The dust jacket below is one of my favorites from an on odd liner notes feature in the new edition of our program guide LCD (Lowest Common Denominator). You can get 52 pages of today's finest bathroom reading absolutely free, by simply sending a xerox of any strange liner notes to: David Newgarden, WFMU, 580 Springdale Ave., East Orange, NJ 07017.

Doug Schulkind, will be taking a sabbatical from the Music Department to finish up our double-CD compilation of WFMU live music broadcasts, which should be done in October and is available only to our listener-supporters. Some of the performers on the album are Hasil Adkins, Daniel Johnston, Suzanne Vega, Bob Mould, Jad Fair, Cowboy Junkies, Andrew Cyrille, Peter Stampfel, Sister Carol, Swans, Tall Dwarfs, ESG, Les Batteries, King Missile, Jac Berrocal, Sam Ulano, the Dentists, Baby Gramps, Sun City Girls and many more....

If Doug had been your contact, you can now call me; my hours for phone calls will continue to be Thursdays, 12-5 Eastern time. However, I'll be taking a month-long south-of-the-border vacation and will be gone until Sept. 9 or 16. We'll of course be on the air 24 hours, adding new records to the library, sending out playlists, faxing in reports to trade papers, recycling press kits, but we will not be returning any phone calls until I return (unless it's urgent). If it's any consolation, I'll think about you often while I'm sipping rum punch on the beach.

Hasta luego,

David Newgarden
Music Director

SATAN AND

UNDERGROUND

DECIPLES

The most dynamic individual in music show business today is Satan, of Satan and Deciples. This artist has combined showmanship with music in a way that has never been done before.

In this modern area of entertainment there seems to be no limit to new and talented people with ideas in the recording field. One of the very top entertainers today is the unbelievable, individual, idealistic, Satan and Deciples. To see this artist and group in person is a treat, entertainment and musical, you will never forget. Satan and Deciples have one of the greatest original interpretations of the new dimension of psychedelic sound. They are undoubtedly masters of this age of music.

Their sudden rise throughout the South in the entertainment field is astounding. I suppose that the explanation can be found in their broad interpretation of the music of today, because they have taken full advantage of this field and its definition of music. Which music, having something to do with mind and the soul, plus the rhythmic beat of the music, brings the listener's attention from which it does not seem to let go, and you find yourself hanging on, so to speak, for what will be next by Satan and Deciples.

Ann Kelly and Dennie Denson
