**Wfmu** broadcasts 24 hours a day, 365 days a year to Northern New Jersey and about 2/3 of New York City. Records, CD's, and tapes submitted for airplay are first auditioned by the hard-working / hard-drinking music department. Generally about 1/2 of the 150 or so recordings we receive each week become landfill. The good ones are made available to our 60 volunteer DJ's, who program whatever they happen to like. After 4 weeks in the "new bin", the actual number of plays for each album is tallied and we compile the playlist you now hold.

## Wfmu News...

In October, we held our first ever Benefit Record Fair (with live broadcasts) at the Elk's Lodge in Hoboken. Hardly anyone left the place without their arms full of vinyl. Collecting \$3 admission, renting tables to record dealers, selling t-shirts, records, coffee, sandwiches and lots of beer, we raised over \$15,000! Our engineer promptly spent this on new equipment within 4 hours. Stay tuned for details on our second Record Fair coming in the Spring....Look for liner notes by WFMU's Hound on the new "Okeh Rhythm & Blues Story" boxed set out now on Sony...Rhino has put out a 2 volume hardcore retrospective (boy do I feel old!) with liner notes by our own Johan Kugelberg, who hosts WFMU's "Cocktail Hour", a program of 50's and 60's easy listening music - I guess he's getting old too...
