Hello!

Yet another lennngthhhy playlist, yet we're always looking to make it longer with GOOD recordings. So if your pals, your mom, etc., run record labels, please tell them about us and that we'd love to hear the music they've worked painstakingly to release.

WFMU wants to thank our listeners (even some of you industry types) for the pledging of \$50,000 during our Fall Microthon. This money goes towards the final payment on our radio broadcasting license, making us *100% independent*. Yay! and finally! The now-deserted Upsala College has been sold off a chunk at a time during the past week (I went over and wandered through the maze of science lab tables etc. up for auction--sad); maintenance men were even removing the transformers from the on-campus power lines to sell. Weird! Now we just worry about what is to happen to our building (owned by the college) and how soon and to where we shall have to move.

WFMU's super-successful Christmastime Record Fair is nigh upon us, you too can get in on the melee if you live in the NYC area. We'll be at the Mary Help of Christians Church, 12th St. and Ave. A, NYC, on December 2nd (11-8) and December 3rd (11-7). Rekkids, beer, live broadcasts. I'll be at the WFMU Record tables near the whole time, so come say hi!

getting your goat and giving it to charity,

Robin Edgerton, musique directress
